

## UTMA LC 35E CNC

**Kind :** Cnc sharpening machine  
**Brand :** UTMA  
**Model :** LC 35E CNC  
**Year :** 2011  
**Stock Nr :** T12586

Numerical control sharpening machine 4+1 axes

### TECHNICAL DETAILS

|                                                       |                    |
|-------------------------------------------------------|--------------------|
| - X axis (table stroke)                               | : 350 [mm]         |
| - Y axis (horizontal stroke of grinding wheel holder) | : 300 [mm]         |
| - Z axis (vertical stroke of grinding wheel holder)   | : 250 [mm]         |
| - Divisor (part holder)                               | : 360 [°]          |
| - Swiveling angle of grinding wheel holder            | : +/-270 [°]       |
| - Maximum diameter between centers                    | : 305 [mm]         |
| - Maximum diameter of the wheel                       | : 175 [mm]         |
| - Motor power ( grinding wheel holder)                | : 2,2 [Kw]         |
| - Weight                                              | : 1500 [kg]        |
| - Dimensions                                          | : 170x170x190 [cm] |

### EQUIPMENT

- ISO software for free programming
- Tank with filtration
- Oil mist aspiration
- Electronic deported crank handle
